Warnings

Warnings

Please read these warnings before using your headphones. To ensure safety, observe all warnings while using this equipment.

- Do not disassemble or attempt to repair headphones.
- Never use the headphones in places where the inability to hear ambient sounds presents a serious risk (such as while operating a motor vehicle or bicycle, or at railroad crossings, train stations, construction sites or on roads or where vehicles and bicycles are traveling).
- Noise-cancelling headphones make it hard to hear outside low-pitched sounds. Take care to recognize warning beeps and other auditory reminders; be aware that the familiar sound of these alerts may be changed by the headphones.
- To prevent damage to your eardrums, never use the headphones at excessive volume levels. Listening to loud sounds for an extended period may cause temporary or permanent hearing loss.
- Do not store the headphones in direct sunlight, near heating devices or in hot, humid or dusty places.
- Do not subject the headphones to strong impact.
- Do not allow the headphones to become wet.

Battery precautions

- Keep batteries out of the reach of children.
- Use only disposable AAA alkaline batteries.
- Do not use rechargeable batteries.
- Observe correct polarity as marked.
- Remove depleted battery immediately.
- Please dispose of used batteries properly.
- Do not use a leaking battery. If battery leakage occurs, avoid contact with skin. If contact occurs, immediately wash thoroughly with soap and water. If battery leakage comes into contact with your eyes, immediately flush with water and seek medical attention.
- Do not expose the battery to excessive heat.

Compliance with FCC rules (USA only)

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC WARNING

You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

NOTICE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Canada only

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme á la norme NMB-003 du Canada.

CE This product conforms to the EMC Directive 2004/108/EC. The complete declaration of conformity can be obtained from Audio-Technica Limited, Royal London Industrial Estate, Beeston, Leeds, UK, LS11 8AG.

Introduction

Thank you for purchasing Audio-Technica ATH-ANC7b QuietPoint® Noise-Cancelling Headphones.

Read these instructions before using the headphones, and keep the manual for future reference.

About ATH-ANC7b QuietPoint® Noise-Cancelling Headphones
Audio-Technica's ATH-ANC7b QuietPoint® headphones use active noise-cancelling technology to provide a comfortable listening environment in areas with high ambient noise. The headphones feature a miniature microphone in each earpiece that picks up ambient noise (such as traffic, air-handling systems, etc.) and creates a sound-cancelling signal to effectively block the noise.

From studio...to stage...to you
Audio-Technica equipment is used by major artists for studio recording and capturing live performances on stage...allowing audiences to experience their work as clearly and fully as it was intended. These headphones are designed to offer you the advances in electro-acoustic technology that make Audio-Technica the choice of leading artists worldwide. Wherever you happen to find yourself—in the comfort of your living room, in a noisy office, or settling in for a long flight—there is no better way to experience audio or immerse yourself in a peaceful environment.

- Award-winning QuietPoint® active noise-cancelling technology reduces environmental noise by up to 85%
- Arrive refreshed after a long flight, avoid distractions in a noisy office, or find peace & quiet in your living room
- Lightweight, compact design is ideal for travel
- Use for MP3, CD, DVD and in-flight entertainment systems; remove detachable cable for noise-cancelling function without audio input
- Closed-back headphones feature large-aperture 40 mm drivers for impactful bass, extended treble and higher fidelity
- Audio functions (in passive mode) even without the battery
- Fully integrated electronics—no external modules needed
- Includes a durable carrying case with attached pouch for accessories

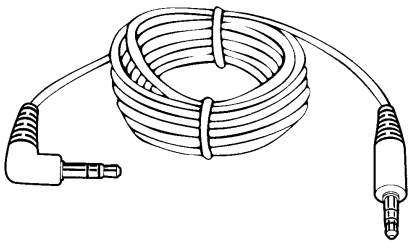
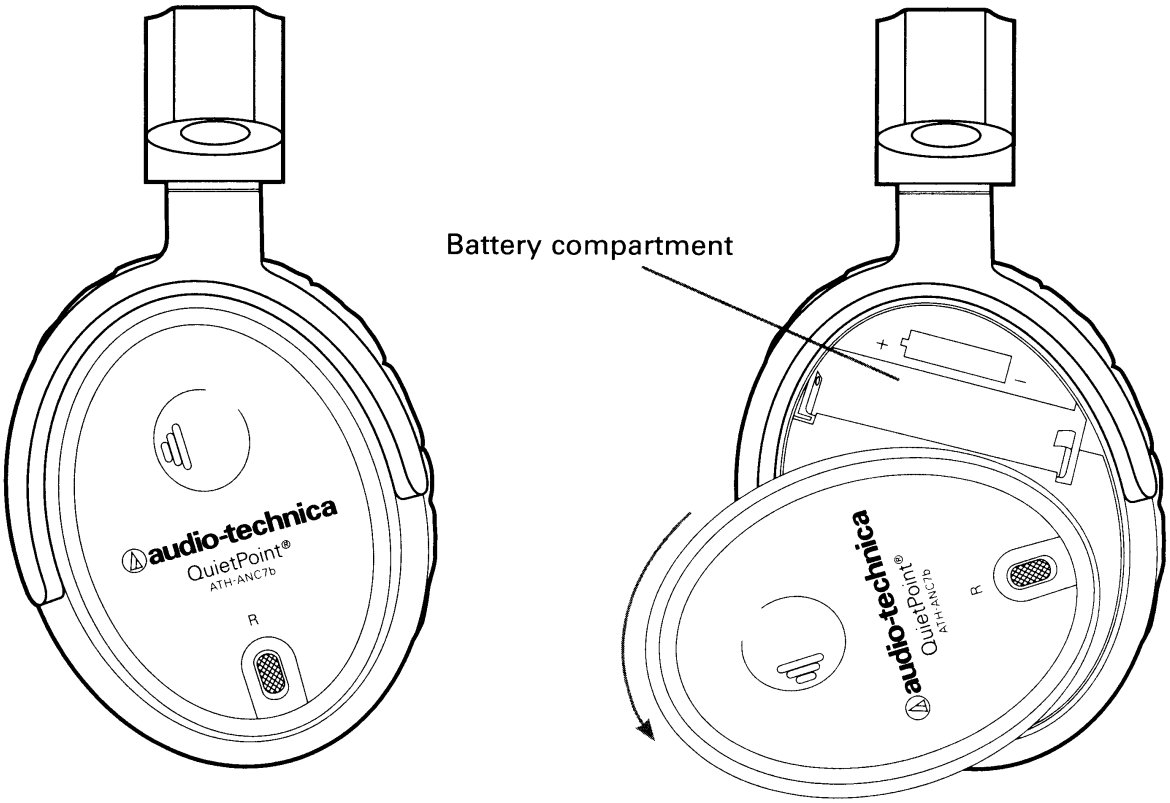
Gold-plated airline adapter



Detachable 1.0 m (3.3') cable with gold-plated 3.5 mm (1/8") stereo mini-plugs

Gold-plated 6.3 mm (1/4") stereo adapter

Installing the battery and case construction



Pivot right earcup to expose battery compartment.

The ATH-ANC7b requires one AAA battery for operation (included). Use only disposable AAA alkaline batteries. **Do not use rechargeable batteries.**

1. Move headphone power switch to the "OFF" position.
2. Pivot right earcup to expose battery compartment.
3. Insert AAA battery, observing correct polarity as marked.
4. Close battery compartment cover. **Note:** Close cover completely. The right earcup will not pivot freely if the battery compartment is not completely closed.

Note: Power indicator light blinks to indicate low battery.

Using your headphones

To listen to music/audio

1. Connect the included headphone cable to the port on the left earcup, making certain the plug is firmly seated.
2. Connect the other end of the headphone cable to the headphone jack of your audio device.
   - Use 3.5 mm (1/8") stereo mini-plug to connect to MP3, CD player, DVD player, computer, and other audio devices equipped with a 3.5 mm output jack.
   - Use included 6.3 mm (1/4") stereo adapter to connect to home stereo equipped with 6.3 mm (1/4") output jack.
   - Use included airline adapter to connect to typical airline audio systems.

Note: The headphones cannot be used with devices equipped with 2.5 mm earphone jacks. Please purchase an optional mono/stereo adapter for use with a mono device. (Without use of an adapter, the right channel is muted when headphones are connected to a mono device.)

3. To activate noise-cancelling function, move the power switch on your headphones to the "ON" position; power indicator should light (blue). (If you do not wish to use the active noise-cancelling function, move power switch to the "OFF" postion.)
4. Turn on your audio device. (Volume should be set at a low level at first; adjust as necessary on audio device.)

For noise-cancelling only

1. To activate noise-cancelling function, move the power switch on your headphones to the "ON" position; power indicator should light (blue). In this case, there is no need to connect the headphone cable; simply turn the headphones on and wear them.

After using

- After you have finished using your headphones, be certain to move the power switch to the "OFF" position.
- Remove battery when you will not be using the headphones for an extended period.
- Store the headphones in included protective carrying case; store accessories in attached pouch.
- To clean the headphones, wipe with a clean, soft cloth. Do not use solvents such as benzene or paint thinner on the headphones.
- Earpads will wear over time. Replacement pads are available from Audio-Technica dealers.

Troubleshooting guide

Problem	Solution
Ambient noise is not reduced	Adjust headphones' position. (Headphones may be incorrectly positioned on ears.) Turn power switch off, and on again. (Ambient noise may be out of synchronization with noise-cancelling frequency.)
Headphones produce rumbling noise	Adjust headphones' position. (Headphones may be incorrectly positioned on ears.)
Sound has become distorted	Turn down volume of audio/video equipment. (Volume may be too loud.) Change battery in headphones. (Battery may be drained.)
